

Elbe Flugzeugwerke

Elbe Flugzeugwerke GmbH (EFW) in Dresden is a 100% subsidiary and business unit of EADS. Within EADS, EFW is the centre of competence for the conversion of Airbus passenger aircraft into freighters (A300 & A310 widebody aircraft) and the associated maintenance. EFW is also the centre of excellence for the development, design and manufacture of fibre-reinforced sandwich components for interior furnishings (floor panels, cargo compartment linings, cabin components and VIP-equipment) of the entire Airbus family. As an engineering centre approved by EASA, our company develops new technologies for cabin and cockpit components.

In the state-of-the-art hangars, shops and laboratories, a skeleton staff of around 1.000 qualified employees is at work for Airbus programs and customers in a close production network with German and European partner companies.

EFW offers challenging job opportunities for engineers with a degree in Aerospace Engineering or Mechanical Engineering and applicable experience in the Aerospace industry. We are looking for dedicated and motivated team players to support our Engineering and Freighter Conversion departments. Successful candidates cooperate effectively and possess excellent communication skills in German and English as well.
